Kaloo introduces plush night lights

Eric Panciulo, French baby product designer, recently created the Moonlight Series of night lights that children can cuddle. Moonlight Bears and Bunnies blend the security of a night light with the comfort of a plush bear or bunny rabbit. The design features a 10-in. soft, washable cotton velour stuffed animal with a removable, rechargeable soft light in its tummy.

Moonlight Bear carries a suggested retail price of \$60 and is packaged in an attractive hat box. For more information email infousa@kaloo.com or visit www.kaloo.com.
