PIT-EA CHATTER

Brad splits his guts in the November issue of Cosmopolitan UK, or does he? Although his rep denies the interview exists, Brad allegedly touches upon being dumped by actress Jill Schoeller, his co-star in 1999's *Cutting Class*, wanting "one more" child, and whether he and Angie will marry. "I still want to kiss the bride, wear the ring, wear my suit, and wake up in the morning and say, 'Good morning, my wife,'" he sighs. And with 100-percent certainty we say this: Brad Pitt makes just as good a hubby as he does a daddy.
